Strong relationships.

Liquid-filled three-phase pad-mounted transformers

ANSI/NEMA/IEEE standards

Dead Front, Radial Feed, IEEE C57.12.34

Product description

CG transformers are manufactured in accordance to the latest applicable ANSI/NEMA/IEEE standards. The transformers can be mineral oil-filled, less-flammable liquid-filled or biodegradable fluid-filled. UL® listed mineral oil liquid-insulated pad-mounted transformers through 2500 kVA are available, together with less-flammable oil liquid-insulated UL® in accordance with sec.450-23 of the National Electrical Code (NEC).

Standard characteristics

- > 65°C average winding rise
- > Step-stacked core and obround coil design or wound core
- > Five legged core design for Wye/Wye connected units
- > Three legged core design for units with Delta connected winding (applicable to stacked core only)
- > 60 Hz standard, optional 50 Hz
- > All transformers comply with Department of Energy (DOE) efficiency requirements
- > Operating voltages for **45 kVA through 1500 kVA** rating:

High Voltages (HV):

- > 4160Grd Y/2400 V through 34500 Grd Y/19920 V
- > 2400 through 34500 V Delta -Various dual high voltages

High Voltage taps:

- > All voltages are available with or without taps
- > Dual voltage taps provided only on the higher voltage

Low Voltages (LV):

- > 208Y/120 V, 480Y/277 V, 480 V Δ, 240 V Δ and 240 V Δ with 120 V mid-tap in one phase
- > 4160Y/2400 V, 4160 V Δ, 2400 V Δ

Primary insulation classes: 35 kV, 150 kV BIL and below

- > Operating voltages for **2000 kVA through 3000 kVA** rating:

High Voltages (HV):

- > 12470Grd Y/7200 V through 34500 Grd Y/19920 V -4160 V through 34500 V Delta
- > 4160 Grd Y/2400 V through 2000 kVA -2400 V Delta up through 2000 kVA
- > Various dual high voltages

Voltage taps:

- > All voltages are available with or without taps
- > Dual voltage taps provided only on the higher voltage

Low Voltages (LV):

- > 480Y/277 V, 480 V Δ, 240 V Δ
- > 4160Y/2400 V, 4160 V Δ, 2400 V Δ

- > Impedance guidelines:

45 – 225 kVA:	2.5 - 4.5% nominal
300 kVA:	2.8 - 4.5% nominal
500 kVA:	3.0 - 5.0% nominal
750 – 2500 kVA:	5.75% nominal
3000 kVA:	consult CG Power Systems USA

Standard features

- > Bolted-on cabinet with removable sill having the following depths:
 - > 19" deep for 45 kVA through 500 kVA (208Y/120 or 240 or 240/120)
 - > 19" deep for 45 kVA through 1000 kVA (480Y/277)
 - > 24" deep for 1500 kVA through 3000 kVA (480Y/277)
 - > 24" deep for 750 kVA through 1500 kVA (208Y/120 or 240 or 240/120)
- > HV and LV compartment doors – hinged and lift-off type with 120° holding bars
- > Stainless steel door hinges
- > Steel HV/LV compartment barrier
- > Padlocking facility with one penta-head bolt on the LV compartment door and two penta-head bolts on the HV compartment door – including 3 point latching mechanism
- > HV connection:
 - > Dead front – external clamped and removable HV bushings well for loadbreak inserts
- > LV connection:
 - > Externally clamped polymer LV bushings for full load current below 940 A
 - > Externally clamped porcelain LV bushings with integral NEMA spade
 - > For 2000 kVA through 3000 kVA, externally clamped porcelain LV bushings with NEMA 10-hole spades
- > Parking stands for HV dead front terminals
- > Nameplate per ANSI requirement
- > Self-actuating pressure relief valve – 50 SCFM flow rate @ 15 PSIG
- > Oil fill plug
- > Oil drain plug for 500 kVA and below
- > 1" drain valve with sampler for 750 kVA and above
- > Removable LV neutral ground strap; as required
- > NEMA "Mr. Ouch"® safety labels
- > HoXo switch for Y-Y connected transformers
- > Cooling panels (fins or radiators)
- > Durable, corrosion-resistance powder coat paint finish – Munsell Green 7GY3.29/1.5 or ANSI # 70 Gray 5.0BG7.0/0.4
- > NEMA tank ground pads
 - > hole for 45 through 500 kVA
 - > 2-holes for 750 kVA through 3000 kVA
- > Four (4) lifting lugs
- > Jacking bosses
- > Provision for liquid level gauge
- > Provision for liquid temperature gauge
- > Provision for pressure vacuum gauge

Dead Front Radial Feed

Optional accessories

- > Welded cover with handhole
- > Oil level gauge
- > Dial-type thermometer
- > Oil drain valve with or without sampler
- > Pressure vacuum gauge
- > Mechanical pressure relief device mounted on tank cover
- > Primary termination:
 - > Externally clamped bushing wells with loadbreak inserts
 - > Integral loadbreak or non-loadbreak bushings
- > Secondary termination:
 - > Externally clamped bushings with NEMA 4-hole, 6-hole, 8-hole, 10-hole or 12-hole spades
 - > Spade supports are available on 8-hole spade and larger
- > Primary switching:
 - > Externally operated de-energized tap changer
 - > Externally operated dual voltage switch
 - > Externally operated Δ-Y switch
 - > 2-position loadbreak oil switches
 - > 4-position T or V blade sectionalizing loop switches
- > Over-voltage protection:
 - > Under oil internal arresters up to 22.0 McoV (35 kV) - Dead front elbow arresters up to 22.0 McoV (35 kV)
 - > Feed-Thru Inserts (15,25 or 35 kV)

- > Over-current protection:
 - > Bayonet-type expulsion fuses with plastic drip cup mounted on each bayonet fuse
 - > Weak link cartridge fuses
 - > Bayonet type in series with internal partial-range current limiting fuses
 - > Secondary under oil circuit breaker (45 kVA through 300 kVA w. 480Y/277 and 45 through 150 kVA w. 208Y/120 or 240/120)
- > Additional construction options:
 - > Stainless steel tank and cabinet design
 - > Partial stainless steel design (cabinet sill and tank bottom)
 - > 30" or 34" or 40" deep cabinet
 - > CT's or PT's, including mounting support
 - > LV externally mounted molded case breaker
 - > Externally mounted kWh meter
 - > Flip-top cabinet for low profile design
 - > Additional externally mounted nameplate
 - > Different paint color per requirement – such as ANSI # 70 Gray 5.0BG7.0/0.4

- 1 H.V. bushing wells
- 2 L.V. bushings -4, 6, or 10 hole spades per ANSI
- 3 Parking stands
- 4 Pressure relief valve
- 5 Provision for liquid level gauge
- 6 Provision for liquid temperature gauge
- 7 1" NPT oil fill plug
- 8 Oil drain
 - > 1" NPT plug (75 – 500 kVA)
 - > 1" NPT valve with side sampler (750 kVA & above)
- 9 Nameplate
- 10 Grounding
 - > 1-hole ground pad (75 – 500 kVA)
 - > 2-hole ground pads (750 – 3000 kVA)
- 11 L.V. neutral ground strap
- 12 Lifting lugs
- 13 Padlock facility and pentahead door bolt
- 14 L.V. door handle
- 15 Removable lower front sill

- 17 Transformer tank
- 18 L.V. compartment door
- 19 H.V. compartment door
- 20 Raised air compartment
- 21 Jacking provisions
- 22 Cooling fins or radiators (when req'd)
- 23 Tap changer handle
- 24 "HoXo" switch (Y-Y designs)
- 25 Bay-O-Net fusing
- 31 High – Low barrier
- 34 Provision for pressure vacuum gauge

Additional features

Paint Munsell green 7GY3.29/1.5
 Stainless steel hinges
 All bushings are externally clamped.
